OTTERBOX PROTECTION *for the*

Samsung Galaxy S II Epic 4G Touch

Designers at OtterBox create a number of concept renderings that feature different stylistic treatments with minor variations in functionality. The concept that best matches the experience of the device with intuitive functionality gets selected. By varying appropriate textures, a visual bond is created between the device and the case. Incorporating innovative engineering, the case offers intuitive full-functionality of the device while providing great protection — a true marriage of form, fit and function.

With the speed and unmatched rich color display of the Samsung Galaxy S II Epic Touch 4G, you're going to want the most protection possible. The Commuter Series for Epic 4G Touch case is the slimmest case we make that is semi-rugged and will protect your new device from your highly connected life.

COMMUTER SERIES®

FEATURES

- **SCREEN PROTECTION:** Self-adhering screen protector prevents scratches
- **INNER LAYER:** Durable silicone absorbs bump and shock
